

Geography

In Geography we will be studying the history of the Midlands. Have a go at researching the village or town that you live in and see what interesting facts you can find about its history. Present the information however you like.

English:

Create a newspaper report for a big event. The event could be something that has really happened but could also be something fictional.

Computing:

Use Scratch to create your own mini story. Try and include speech and characters who move at different times.

RE:

Write your own set of commandments for the modern world. Will you keep any the same as the original ones that were given to Moses?

Year 6 Homework

Spring 1

RSE:

Surprise your family by doing something helpful at home without being asked.

Maths:

It's really important to have a good arithmetic knowledge. Use Maths Bot to help you practice.

Science:

Research how humans have developed and evolved over time to be able to survive to today's world. Can you find any other species that have gone through big adaptations?

P.E.

Create a dance routine to your favourite piece of music. Remember to upload it to SeeSaw so that I can watch.

Art:

Find or take a picture of a beautiful landscape. Have a go at recreating this thinking about tone and perspective. You can use any medium that you like.
